

# WOLF-14

## NIGHT VISION MONOCULAR

The AGM Wolf-14 is a Night Vision monocular built around commercial grade image intensifier tube especially to provide decent night vision options for budget minded hunters and other outdoor enthusiasts. Built with high-grade optics and simple, reliable electronics, the Wolf-14 provides bright and clear night vision images, even in the most trying conditions whether it is boat ride along the coast or nearest cave exploration with your kids.

This unit includes a built-in IR light source for reading maps or basic, short-range illumination in complete darkness. The AGM Wolf-14 is available with a variety of accessories such as head mount for hands-free operation and high-powered IR illuminator for long-range use.

Waterproof, rugged, light, and compact, the Wolf-14 is the perfect night vision unit for a variety of outdoor activities with your family. Show the beauty of the night to your kids!
