\_CENTRELESS TABLE | Ct

## *Perfect* QUALITY

THE \_CENTRELESS **TABLE** is a universal solution for shadow-free product photography. Forget looking for a compromise between quality and efficiency. You can achieve perfect results with small, large, transparent, glossy, light or dark products. The turning glass plate therefore allows you to capture images of anything, from a ring to a suitcase.

# \_CENTRELESS TABLE | Ct

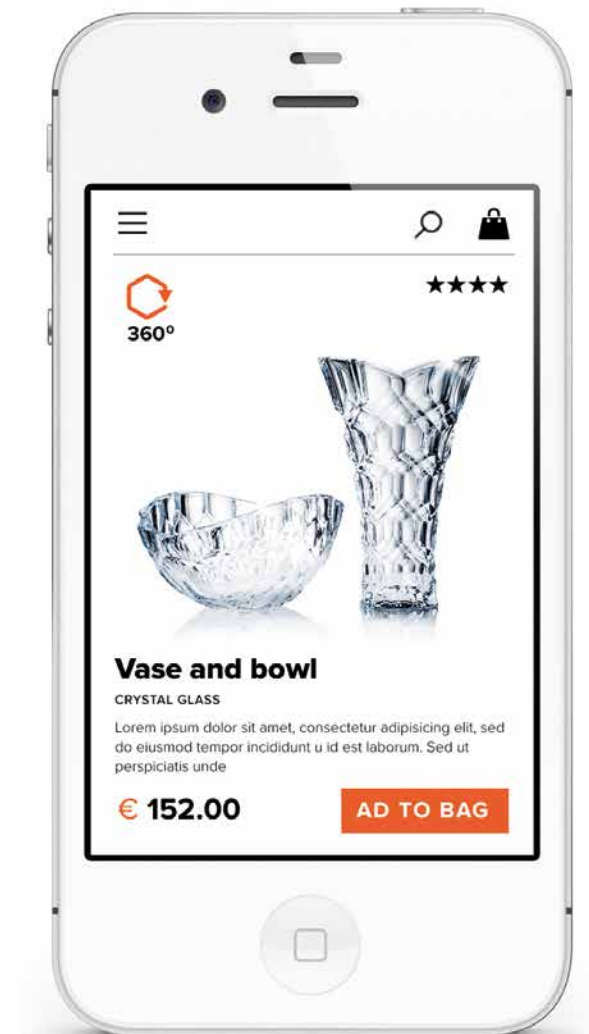

## \_UNIQUE TECHNOLOGY

Optical glass plate and diffuse background enable the photographed object to be lit from all sides. The **\_CENTRELESS** TABLE can therefore naturally create quality photographs on a pure white background.

Modularity - unlimited increase in creativity for professional photographers.

Presetting - excellent results with a simple press of the button.

— *Centreless is made in two plate size variants. The wider version makes the table with a 130 cm diameter plate and load-bearing capacity of up to 40 kg the largest workstation available on the market.*

—CENTRELESS TABLE

# Ict

—*Uncompromising manufacturing quality with an emphasis on durability, which is even suitable for operation on multiple shifts in industrial conditions and is resistant to dust and mechanical damage.*

## \_SINGLE SOFTWARE PRODUCT TO CONTROL THE ENTIRE STUDIO

PhotoRobot **\_CONTROLS** software suite, boasting a modern intuitive design, is the best comprehensive studio management available on the market. It is used to remotely control the entire workplace (robots, cameras, lighting), manage workflow and provide the necessary functionality for effective automation in the field of post-processing.

Using **\_CONTROLS** saves you time while also giving you an advantage over the competition thanks to its higher quality image output.

**\_CONTROLS** is multi-platform and mobile - whether you use macOS, Windows or Linux, iOS, Android or Windows Mobile.

\* *The availability of features depends on which programme version is used.  
Find out more at [www.photorobot.com](http://www.photorobot.com).*

### **\_QUALITY IS KEY**

PhotoRobot devices are made by people who also use them.

They therefore know very well that only well designed things can do a lot of complex work for us and still be simple to use. Only then can we achieve the highest efficiency.

Our goal is to continuously improve.

PhotoRobot devices are the result of ceaseless internal development. We make sure that our robots are user-friendly yet last long even under high load. That is why we have chosen a heavy-duty design. All parts are made in the EU. We guarantee quality.

**10  
YEARS**

**1000  
ROBOTS**

**GLOBAL  
INSTALLATIONS**

COMPATIBILITY

THE **\_CENTRELESS** TABLE is compatible with all robots used for 3D spin photography.  
You can use PhotoRobot **\_CUBE** to partially or completely suspend photographed objects.
