3 MAGICAL SMOKE EFFECTS

FOG

DRYICE

STEAM

With the same machine, you can create 3 different fog textures, all built into AUTOMATIC PRESETS.

FOG: Dense lingering smoke, perfect for Portraits and Outdoors

DRYICE: Liquid texture, perfect for Creative Product Shots

STEAM: Fast dissipating fine smoke, perfect for Food Styling

LAB BEAKERS and TEST TUBES (using nozzle)

(TVC for LEE JEANS Hong Kong.
The smoke is **SPRAYED** on the surface
as it grabs on to the denim fabric,
lingering effect as shown.)

SGS, AEA – Certified Food Safe Smoke Formula

Our unique smoke formula is certified for material safety, with main ingredients being common in skincare and cosmetic products.

Our smoke is NOT ONLY food-safe, but also smells much more pleasant than traditional smoke machines, allowing the model/artist to perform much better in the absence of smoke irritation.

- ✓ **SGS - Certified SAFE for Humans**
- ✓ **Smells Pleasant**
- ✓ **Non-irritant to human skin and fabric textiles**
